

Paycheck Protection Program: Staying Out of the Headlines

Staying Out of the Headlines: Top 5 Risks to Avoid

Lack of Due Diligence

Failure to follow up with applicant to clarify/
substantiate calculation inaccuracies

Double Dipping

Insufficient control environment to prevent
applicants submitting multiple applications

Favoring of Large Borrowers

Unfairly prioritizing funding based on the
applicant's loan size request

Discriminatory Lending

Overlooked due diligence practices in taking on influx of new
applicants

Unsubstantiated Forgiveness

Inadequacy in documented evidence to support
assumptions used in determining forgiveness amount

Can You Answer These Critical PPP Questions?

ORIGINATION LOOKBACK

Has **proper documentation** been captured for all loans?

Were **affiliation rules followed** in determining eligibility?

Any **discrepancies** between borrower's PPP submission and prior credit applications?

Is there **evidence of the order** in which PPP loans were processed?

What **procedure** was followed in **prioritizing applications**?

UPCOMING LOAN FORGIVENESS

Has borrower forgiveness application been **completed correctly**?

Any **errors in calculations** used to arrive at requested forgiveness amount?

Do payroll **records match** forgiveness inputs? Are the covered **periods the same**?

Has **proper documentation** for mortgage interest, rent and utilities been received?

If FTE Safe Harbor has been utilized, is there **documentation to support it**?

CrossCountry's PPP Solution: FinServ + Process/ Automation Expertise

We combine consultants with experience in lending, credit, and risk with process automation capabilities in order to assist lenders in implementing an efficient, risk-mitigated process.

Origination Lookback

FOCUS

A review of PPP loans focused on operational, reputational and fraud risk.

APPROACH

- Leverage a comprehensive Risk & Control framework developed specifically for PPP
- Provide a set of findings
- Develop a remediation plan

IMPACT

1. Detect any hidden "land mines" which may have arisen during the frenzy of PPP processing
2. Prepare and equip for PPP audits from the SBA, CFPB, FDIC, the Fed and the Department of Justice
3. Avoid severe reputational risk

Forgiveness Automation

FOCUS

An automated, risk-based process for PPP loan forgiveness

APPROACH

- Protect lender from future audit findings with a risk-based process
- Automate low value-add process elements to allow scale
- Develop efficiencies for forgiveness that are easily converted to Portfolio Management "business as usual" processing

IMPACT

1. Process loan forgiveness requests with high accuracy and efficiency
2. Review large volume of applications to ensure regulatory compliance, detect fraud and verify controls
3. Emerge from PPP with evidence of controls followed, documentation received, and investigation-ready audit trail

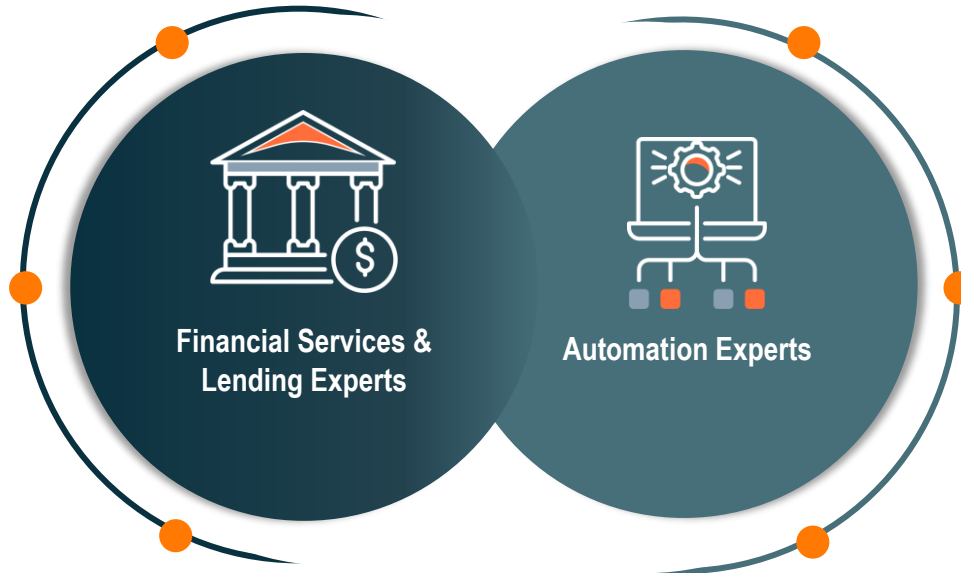

PPP Risk Management & the CrossCountry Difference

Projects staffed with financial services-savvy team members with lending, credit and risk experience

Leverage UiPath partnership in order to hit the ground running with pre-built automated PPP solution components

Experts in navigating processes exposed to complex regulations

RPA expertise to help you achieve up to 80% in processing time reduction

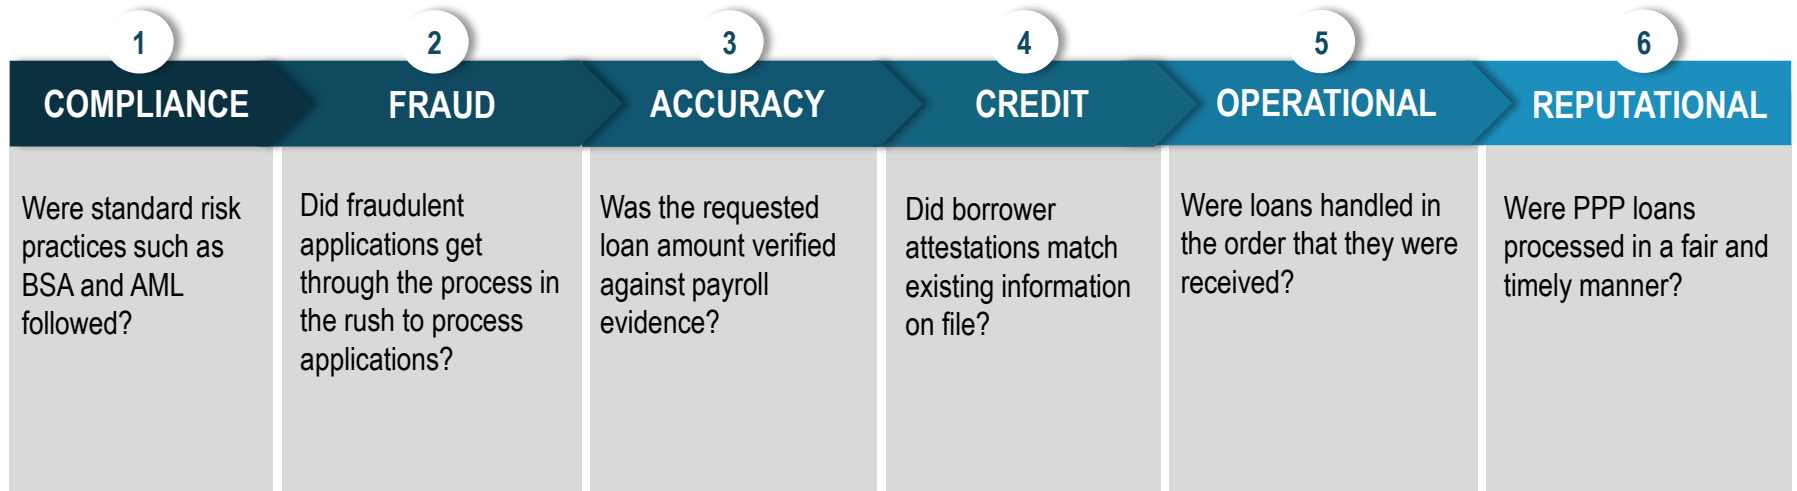

Expertise in addressing regulatory, internal, and customer queries in real time

Proactive portfolio management and risk monitoring; large scale of review and verification for compliance through RPA

Analyzing Your PPP Risk & Control Framework

Our risk and control lookback focuses are on **compliance, operational, fraud and reputational risk.**

Sample Deliverables

ID#	Process	Sub-process	Control Objectives	Risk	Sub-risk	Control Name	Control Description	Control Type	Control Automation	Control Frequency	Documentation Evidence
